Digital signage has emerged as a highly-effective method for businesses to communicate. Whether the objective is to increase revenue with customer-facing messages or share information with employee-facing screens, one thing is clear; the key to successfully reaching that goal is through rapid, quality deployment of your digital signage technology solution.

Velociti has a unique business model that allows for seamless large-scale global deployments of digital signage. Velociti's dedicated project management team is experienced in bringing concepts to reality with services performed by certified full-time technicians and our own network of local Velociti Xpress technicians located throughout the world.

Our experts will meticulously plan the deployment of your kiosk, digital signage, point of sale system, or additional networked devices. We will connect your equipment to the newly installed or existing network infrastructure and work with you through the full testing and configuration of your system.

Whether you need a full nationwide system rollout, a regional multi-site service or single-location installation, we can help you through the entire process.

Equipment installation services include:

- **Equipment Staging**
- **Molding and Encasing Installations**
- **Cabling**
- **System Mounting**
- **System Configuration**
- **Peripheral Connections and Testing**

Deployment Solutions

The Velociti Difference

Broad Market Coverage

Our experience and expertise translates effortlessly into a wide spectrum of diverse markets, including yours.

Emerging Technology

As technology evolves, so do we. Our technicians receive continuing education on all emerging technologies. This ensures we understand not only the technology itself, but how it can benefit you.

Dedicated Staff

Our full-time, expertly-trained Project Managers and Mobile Technicians are dedicated to providing stellar service. With Velociti, you can be sure that you will always receive quality, comprehensive support from our knowledgeable and professional staff.

Geographic Reach

You need a service provider that can go anywhere, anytime. Our technicians are geographically dispersed to provide timely and accessible support throughout the World.

Web Based Project Management

Knowledge is power. Our DataMining portal provides you with secure access to all project information. You define the parameters, we provide the data.
